EDUCATION

Sai Gon University <i>Software Engineering</i>	2023 - Present <i>Current GPA: 4.0/4.0</i>
--	---

SKILLS

Languages: C/C++, Python, Java, JavaScript/TypeScript, HTML/CSS Tools: Git/GitHub, VS Code, IntelliJ

PROJECTS

Fitness Carrot – Comprehensive Fitness Tracking Platform <i>Next.js 15, TypeScript, Tailwind CSS, Tailwind CSS, shadcn/ui, Radix UI, Vercel</i>	2025
GitHub: github.com/Hocpham1102/Comunity-Fitness	

- Developed a modern fitness tracking web application for managing workouts, nutrition plans, and progress analytics.
- Implemented workout logging features including exercises, sets, repetitions, and weight tracking.
- Built a nutrition tracking module to manage meals, macronutrients, and daily calorie targets.
- Designed a responsive user interface using Tailwind CSS and reusable components with shadcn/ui.
- Integrated dashboards with data visualization to monitor workout and fitness progress.
- Optimized application performance using the Next.js App Router architecture.

EXPERIENCE

Software Engineering Student <i>Saigon University</i>	Sept. 2022 – Present
• Studying Software Engineering with focus on software development, algorithms, and system design. • Completed coursework in Data Structures, Object-Oriented Programming, and Database Systems. • Developed academic and personal software projects using modern web technologies.	
Personal Software Development	2024 – Present
• Building full-stack web applications using Next.js, TypeScript, and Tailwind CSS. • Using Git and GitHub for version control and collaborative development. • Deploying web applications on Vercel for production environments.	
Competitive Programming Practice	2023 – Present
• Practicing algorithms and data structures to improve problem-solving skills. • Solving problems involving trees, graphs, recursion, and dynamic programming.	

HOBBIES

- Playing badminton and going to the gym to maintain physical fitness and discipline.
- Reading books about technology, programming, and personal development.
